Jim, Arvin called me tonight, Sunday night, when I know he has to be in court in the morning about something that is of considerable personal importance to him. When he asked me about Turner, I have to assume that there is a reason. I have a terrible feeling that Bud may have recommended Turner to him. I also have to ask myself if the question does not reflect some uncertainty or doubt on Arvin's part. If I had thought it through in advance I would have made a carbon for you. Copy if you want, but please return for my Turner file.
